## Visited For Bronchiectasis Treatment

I recommend the doctor

Happy with: Doctor friendliness Explanation of the health issue Treatment satisfaction

Value for money Wait time

Dr Sridhar is very keen in listening the patient. He asks for the family medical history/present ailments and making a brief record of the patient within minutes. I have seen this professional approach only in few doctors, in my life. Whatever busy he is, he spend time with the patient for clearing any doubts and explains the problem, down the level, what the patient can understand. In my experience he prescribes a low

dosage of medicines and the results are amazing within a short span of time. I recommend Dr Sridhar to all my friends!!

### Visited For Consultation

👍 I recommend the doctor

Happy with: Treatment satisfaction

The Doctor will give more importance in listening to the problems expressed by the patient and suggest more natural remedies to solve the problem instead of referring to the diagnostic centres for ECG, X-Ray, Scanning. Thereby bringing awareness to the patient with regard to root cause of the problem.
